

PFCS PUMP

EXCHANGE PROGRAM AND FLAT RATE REBUILD PRICING

INTRODUCING TWO EXCITING NEW PROGRAMS

PFCS Pump Exchange Program

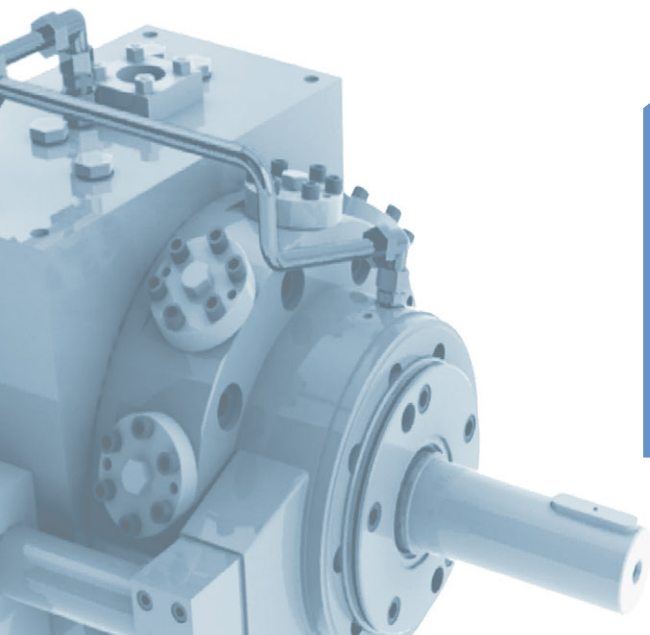

- Oilgear will maintain two PFCS pumps in stock for immediate turn around.
- Exchange price of \$29,875
- Returned PFCS core units shall be in good repairable shape.

PFCS Pump Flat Rate Rebuild Pricing

- Full repair of a PFCS pump \$28,942
- Excludes new shaft/swash, housing, collecting blocks, fault switch, and cylinder blocks. (These items are typically not requiring replacement during rebuilds.)
- Should a rebuild necessitate a new, excluded component listed here, a revised PO will be required for additional cost.

Partial Repair/Reseal of a PFCS pump \$14,758

- Standard preventative maintenance including minor repair/reseal of a PFCS pump.
- Ideal for pumps removed from service in strong running condition.
- If a full rebuild is required, the above flat rate pricing for a full repair will apply.

To request a Return Material Authorization, or to inquire about either program, please contact your Oilgear Sales Representative or email us at oilgearorders@oilgear.com. Or find us on the web at www.oilgear.com/contact/ to download and submit an RMA request form.

- *Delivery in 3-4 weeks from receipt of PFCS pump.*
- *Purchase order must be submitted at time of RMA/Quote receipt.*
- *Flat Rate Pricing will replace all inspect and quote options.*
